

Financial Solutions & Services

Financial Service institutions today are facing many of the same challenges as other industries that are not managing their print environments. Often, they have underutilized or out-of-date equipment scattered throughout their office, lack of knowledge regarding the total cost of the equipment and outdated workflow processes. As a result the cost of printing is often out of control!

COMMON CHALLENGES

- Unsecure client information
- Uncontrolled print expenses
- Low cost visibility
- No print policy
- Avoidable waste
- Poor recycling practices
- Mobile print readiness

FINANCIAL SOLUTIONS

- Cost savings
- Predictable budgeting
- Client security protection
- Mobile print strategy
- User restrictions
- Greener print strategy
- Professionalism of hardcopy output

This industry in particular is marked by a demand for innovative products and services that can provide responsiveness, compliance and agility. While these challenges are specific to the industry, the document output challenges may not be.
